

Dear Colleague,

Congratulations! We are pleased to inform you that the review of your program is complete, and is officially included in the Substance Abuse and Mental Health Service's National Registry of Evidence-based Programs and Practices (NREPP). Please accept the enclosed certificate of recognition marking the successful conclusion of your review.

Now that your program is posted on our Web site, you may choose to provide us with limited updates to the summary going forward by contacting us at nrepp@manilaconsulting.net. Information that is tied to the Quality of Research or Readiness for Dissemination reviews cannot be changed (e.g., program description, outcomes, ratings, strengths and weaknesses). The following may be accepted: updates to contact information; revisions to Implementation History (such as adding new implementation sites in the U.S. or abroad) and Adaptations sections; updates to Costs; the addition of new studies to Replications; and the addition of publication information for articles that were accepted by a journal or in press at the time of NREPP review and have since been published. All updates must be submitted or approved by you, as the Principal, and are subject to review and approval by NREPP staff.

On behalf of our review staff and the entire NREPP team, thank you for contributing your time and attention to making the review of your program a success. We appreciate your valuable contribution to the Registry. If you have questions or wish to provide any feedback regarding your experience with NREPP, please do not hesitate to contact us at nrepp@manilaconsulting.net or 1-866-436-7377.

Sincerely,

A handwritten signature in black ink, reading "Stephen E. Gardner". The signature is fluid and cursive, with the first name "Stephen" being more prominent and the last name "Gardner" following in a similar style.

Stephen E. Gardner, PhD
